kzavier@ucsd.edu
3250 Los Olivos Ln,
La Crescenta, CA

Education

- **UC San Diego** La Jolla, CA
 - Computer Engineering Major – 3.3 Major GPA *Enrolled 2015*
 - Data Structures & Object Oriented Design
 - Mathematics for Algorithms and Systems

Technical Skills

- **Languages:** Java, Javascript, C++, HTML, CSS, Express.js, MySQL(Scala), PHP, C, SQLite
- **Tools:** Android Studio, JUnit, GDB, SolidWorks, vim, Eclipse

Projects

- **Saylii Travels App**
 - Features a map where users can mark locations which their friends can then see
 - Private and group chat functionality user Pusher API
 - Includes a saved contact list that the user can add to (uses MySQL)
 - Available on the Play Store
- **Sky Hook App**
 - Multi level game where the user can shoot a ball and try to hit a target
 - Available on the Play Store
- **Star Wars Movie Site**
 - A website that uses Express to show different web pages for each of the Star Wars movies when the user clicks on the menu link

Experience

- **Mobile Developer Intern**, Marketers Anonymous 06/16-Present
San Francisco, CA *(347) 850-3273*
 - Developed a mobile Android app that utilizes MapBox Api and a Chat/SMS utility
 - Utilized SQLite and Scala to create a contact list and public map
- **Automated Steering Sub Team, UCSD**
 - Worked on implementing an automated steering capability for our submarine using a gryoscope and accelerometer (with a Kalman filter) in C
 - Helped create a model for the submarine (that we used to 3d print some parts) using SolidWorks and MATLAB
- **Office Depot Tech Employee** *(818) 236-2121*
- **Mathnasium Tutoring Center Employee** *(818) 790-6284*
